

Counterfeit Policy

Counterfeit products are becoming a major concern within the relay industry supply chain. Struthers-Dunn purchases all components from vendors who have been approved through our vendor approval process. We encourage our customers to purchase relays and associated Struthers-Dunn products from authorized Struthers-Dunn distributors.

A list of our Domestic and International distributors is available on our website. For questions concerning relays or associated products, please contact us directly or via an authorized Struthers-Dunn distributor.
